Laura,

Keeping you in the loop on this ACWA/NACWA meeting on ammonia implementation. They're looking for OWM participation. I gave them Your and Tom's names to start.

Lars

Lars – The attached agenda has not been reviewed by our project team, but it should give you an idea of where we are headed. I just got this from GLEC yesterday, so I haven't really had a chance to review.

We primarily just need the appropriate folks from EPA to provide an overview of the criteria at the front end (they can probably do that in their sleep now). From there, I don't expect there to be any prepared remarks from EPA (except for a brief opening statement from Betsy or Jeff). We'd like to have everyone there to contribute to the discussion, answer questions, etc. Shouldn't be anything for folks to worry about, but let me know if you all see any red flags on the draft agenda.

Chris,

Folks around here are getting restless and anxious about the meeting. Do you have an agenda I can send around, or would you at least give us a sense of what you expect from the EPA participants?

Thanks!

Lars

Subject: Ammonia Workshop - EPA Participants

Grace, Lars –

Thanks again to Lars for helping to secure some space for the Ammonia Criteria Implementation Workshop. We are set for all day on 10/29 and the morning of 10/30. We are working with GLEC to prepare the materials for the workshop and they will also be providing facilitation services.

Based on our conversations with GLEC and the project team, we wanted to send you a list of the EPA folks we hope can participate. I'm hoping you can help coordinate things on your end to see if we can get all these folks to the meeting. If we have sufficient space we would welcome others from EPA, but this is the core group we feel is essential for the workshop. If we have missed anyone critical, please let me know. This is just a starting point if you think others need to be engaged.

Please let me know if you have any concerns or questions.

HECD – Kathryn Gallagher, Lisa Huff
SHPD – Grace Robiou, Lars Wilcut, Trish Rider
OST Management – Betsy Southerland or Jeff Lape
OWM – Looking for your guidance on who from OWM would be best. Let me know what you think and I will extend an invitation.

Thanks,
Chris
